Examples From Inappropriate Quotes

Note: [REDACTED] extends CFI cost consideration in lieu of educational discounts.

“In lieu” implies that CFI discount is being offered instead of educational discount?

A special discount (listed as a "regional discount" or "negotiated discount" below) has been applied to this quotation. Agencies that provide grants will deem these discounts as our "in-kind" contribution. We do not wish to specify any particular granting agency in the event that you wish to pursue other sources of grants (ie: NSERC). For post graduate research and usage, our list price is the best price available without applying under our Grant Application process. In any event, the discounts that we have listed has been acceptable for CFI purposes.

- Is this a discount that is based on the location of the U of A??

- CFI eligible in-kind discounts must be **specific** to the CFI.
